

## Cryptocurrencies

They have many advantages

Does not require a bank account

Accessible

Confidence

Fast

Anonymous

a transfer can take from 30 seconds to several minutes to become effective.

Can you imagine playing a game and waiting ~2 minutes for the game to start?

How can i use a cryptocurrency in, let's say, a video game?

This is how Zent Fun was born for

## ZentFun

What is this and how it works?

### Zent Fun Service

Zent Fun is a service that allows you to use a cryptocurrency easily and fast, taking advantage of Blockchain, but speeding up the time of each transaction

An API for developers

A WebSite / Mobile App

Ok very nice... but how?

## How

Transfer and Wallet

Imagine traditional banks

When you make a wire transfer

Someone does not carry a bag of bills from one bank to another

ZentFun does, that is....

It first makes the wire transfer and then sends the cryptocurrency from one Wallet to another.

A Wallet is where your cryptocurrencies are stored securely and encrypted, like a bank account

Fast Transfer

Actions:  
Play/Pay  
Buy/Sell

Blockchain Transfer

...And why use Zent?

## Use

It's being a common cryptocurrency

The Zents you win or lose in a game/app, you can use them in another game that integrates Zent.
